PROJECTS

Exposure Hub (Domain: Insurance and Finance)

May, 2024 – Now

Tech Stack: Angular 17+, JavaScript, Typescript, .NET Core, SQL Server, RxJS, NgRx, AgGrid, Rest API, Prompt AI, Embedding AI APIs, Elasticsearch, ChartJS

- Developed a full-stack web application for finance risk management.
- Implemented reusable Angular components and REST APIs for efficient data handling.
- Integrated JWT authentication and form validation, enhancing security and usability.
- Actively working with new AI technologies to upgrade user experience in our applications.

Super Highway (Domain: Insurance and Finance)

Dec, 2022 – April, 2023

Tech Stack: Angular 13, JavaScript, Typescript, RxJS, NgRx , GitLab

- Design and developed responsive UI for demonstration. Integrated static JSON data.
- Implemented reusable Angular components, modules and dynamic forms. Also, added multiple validation checks with proper error.

Client Based Project (Domain: Education and Marketing) May, 2022 – Nov, 2022

Tech Stack: Angular 8, Javascript, Typescript, RxJS, NgRx , GitHub, JIRA,

- Developed multiple web pages based on client and admin use. For dynamic change in CSS and styles
- Implemented complex reactive forms and real-time validations to streamline the claims submission process.

Manifold Edge (Domain: Mechanical and 3D Design)

May, 2022 – Nov, 2022

Tech Stack: Angular 5, Javascript, Typescript, .NET Core, MySQL, RxJS, NgRx , Azure Devops, RestAPI

- Developed responsive UI components using Angular Material and custom reusable directives, improving application consistency across modules.
- Consumed and handled secure REST APIs for policy and user data, enhancing data reliability.
- Used NgRx for state management across multiple modules

EDUCATION

Master of Computer Application – Gold Medalist

July, 2017 – June, 2020

Madan Mohan Malaviye University of Technology, Gorakhpur

Bachelor of Science

July, 2014 – June, 2017

University Of Delhi, New Delhi
